

Assemblin

Assemblin signs framework agreement with Region Skåne for camera surveillance

Assemblin EI has signed a framework agreement with Region Skåne regarding security installations for system integration of camera surveillance in premises and areas where Region Skåne operates. The assignment includes development, installation, operation and further development of camera surveillance solutions.

Assemblin EI has been entrusted with overall responsibility for the camera surveillance solutions - from design and installation to operation, support and ongoing development over time. The assignment places high demands on technical competence, coordination and delivery capacity.

The framework agreement means that Region Skåne will receive a uniform and modern platform for camera surveillance, with a focus on operational reliability, long-term development and sustainability. Visitors and employees at Region Skåne should feel safe, and camera surveillance is an important part of preventive efforts in this regard. Assemblin was selected as the supplier following a competitive procurement process that evaluated both price and quality, where Assemblin's comprehensive offering, technical expertise, and proactive approach were decisive factors.

"We are proud to be entrusted as a strategic partner to Region Skåne for such an important and extensive assignment. Our strength lies in combining cutting-edge technical expertise with a structured and proactive working methods, which creates the conditions for safe, reliable and future-proof solutions," says Jonas Klarén, CEO Assemblin EI, SVP.

The framework agreement commences on September 1, 2026, with the possibility of extension after two years. The assignment covers the entire Skåne region and encompasses everything from new installations to the further development of existing systems.

Sustainability is an integral part of the assignment, both regarding system design and the long-term delivery of services. The focus is on operational reliability, resource efficiency, and long-term development.

Assemblin has extensive experience in security technology solutions and works extensively within camera surveillance and integrated systems in both public and private sectors. With dedicated specialists and established working processes, Assemblin is well positioned to deliver solutions that meet high demands on both function, safety and sustainability.
