## Assemblin strengthens its position in southern Sweden by acquiring Lindsells

**Assemblin Ventilation has acquired ventilation service company Lindsells AB (“Lindsells”) with operations in the region of Skåne, 13 employees and annual sales equivalent to about SEK 30 million.**

Lindsells AB was established in 2010 and has, since then, developed into a reputable installation and service company that offers energy-optimised solutions in ventilation, as well as in cooling, heating and gas. From the company’s base in Löddeköpinge, operations are conducted throughout the region of Skåne. Lindsells has a broad customer base comprising tenant-owner housing associations, private customers, property owners and other companies.

“Lindsells is a stable and reputable service company offering energy optimisation expertise for a customer segment with great opportunities but in which we are not currently very strong. Lindsells will provide a fine complement to our current ventilation operations, strengthen the offering to Assemblin’s customers. Accordingly, this acquisition brings us great satisfaction,” says Håkan Ekvall, President and Business Area Manager at Assemblin Ventilation.

“Although we are very proud of the operations we have built up and view the future with confidence, scaling up our operations requires resources and systems support that we currently lack. We have enjoyed a favourable dialogue with Assemblin and look forward to being able to continue growing together,” says Niclas Lindell, President at Lindsells.

### About Assemblin

Assemblin is an end-to-end installation and service partner with operations in Sweden, Norway and Finland. We design, install and maintain technical systems for air, water and energy. Our vision is to create smart and sustainable installations that make buildings work and people feel comfortable. We make this possible through close local collaboration and are supported by a strong organisation. We have annual sales of SEK 14.4 billion and about 7,000 dedicated employees at some 100 locations in the Nordic region. Read more at [Assemblin.com](http://Assemblin.com).
